RE: NEW SIDEWALK
HURSTBOURNE LN.

This is in response to your request for an estimate to construct sidewalk on east side of Hurstbourne Ln. from Biggin Hill to Raintree Dr.

A sidewalk on the east side is feasible from Biggin Hill to Raintree Dr. However, segments of sidewalk would be located in the city of J-Town. The new sidewalk would connect to the existing sidewalk on the corner of Raintree Dr. and Hurstbourne Ln. and extend about 3,170 ft. to Biggin Hill Ln. Two sets of Guardrail need to be relocated. Some survey and design work could be required in order to obtain sidewalk construction permit from The Kentucky Transportation Cabinet.

An estimate to construct new sidewalk on east side of Hurstbourne Ln. is \$135,000 with a breakdown of \$52,000 in the city of Louisville; \$40,000 in the city of J-Town; \$35,000 the cost of Guardrail relocation and \$8,000 to develop plans, if required. If there are any questions, please contact me at 574-3873.
